

**AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009
SECTION 1511 CERTIFICATION**

The authorized representative of the State Water Board hereby certifies, and/or affirms that the 2008 Wastewater Treatment Plant Upgrade Project (Project) has received the full review and vetting required by law and that such representative accepts responsibility that the Project is an appropriate use of taxpayer dollars. The following general description is provided in order to comply with Section 1511 of American Recovery and Reinvestment Act of 2009 (ARRA):

- Project description: The Project generally consists of a process feed pump station, aeration basin, building for blowers, secondary clarifier, return activated sludge pump station, rapid mix flocculation basins, cloth media disc filters, yard piping, chemical feed system for enhanced filtration and pH control, scum/drain pump station, effluent monitoring equipment, administration/operations building, site grading and paving, and electrical and instrumentation, as more particularly described in the financial assistance application of the San Andreas Sanitary District and the accepted plans and specifications for the Project.
- Estimated total cost of the Project: The estimated reasonable cost of the total Project, including associated planning and design costs, is ten million five hundred seventy-five thousand four hundred ninety-six dollars and no cents (\$10,575,496.00).
- Type of assistance: Extended-term financing with partial principal forgiveness.
- Estimated amount of ARRA funds to be used: Five million eight hundred forty thousand three hundred fourteen dollars and no cents (\$5,840,314.00).
